Baltimore, November 30th, '9. 18

Mr. D. K. Tuttle,

Melter & Refiner U. S. Mint, Philadelphia, Penn

Sir:-

We regret very much to note from your favor of the 29th instant that the Ingots recently sent you were not made in smaller mould. Our people were fully instructed in this matter, and it was quite an oversight to send you the large Ingots;. we have given such orders to-day as will most likely prevent a re-currence.

Will you please advise by return mail when you will need some more Copper. We have already sent you 6,000 pounds on account of requisition for 10,000 pounds, dated November 16th.

We are unusually busy, and don't want to stop our furnaces to make the Copper which you especially require until absolutely necessary.

Yours truly,

Jos. Clendenin Jr.
Secy.
